

LTE/GPS 2-in-1 External Antennas

Off-the-shelf LTE/GNSS 2-in-1 External Antennas are a combination of high-performance GPS and a cellular antenna, designed for reliable asset tracking and remote monitoring applications

Features and Advantages

Integrated LTE and GPS antennas in one housing
Enables reliable asset tracking and remote monitoring

LTE/GNSS 2-in-1 Screw Mount Antenna

Less than 2 VSWR with low noise figure and high gain
Delivers superior RF performance

Multi-protocol solution that supports 2/3/4G and GPS technologies
Makes it suitable for diverse applications

Applications

Connected Home

- Security and surveillance
- Home automation
- Home streaming
- Entertainment
- Smart appliances
- Energy and utilities

IoT

- Infrastructure solutions

Telecommunications/Networking

- Infrastructure/networking

Commercial Vehicles

- Networking
- Roadside traffic infrastructures

Cellular Module

IT infrastructure
